**KTO KARATAY UNIVERSITY**
**FACULTY OF HEALTH SCIENCES**
**NURSING PROGRAM**
**GROUP WORK GUIDELINES**

Aim: The purpose of group work is to enable students to prepare for teamwork, to take an active role within a group, and to acquire skills for effectively presenting the group's topic.

**Method:**

**Instructor**

- Determines the groups at the beginning of the semester (minimum 3, maximum 6 students).
- Determines the topics.
- Shares the resources included in the curriculum with the group members.
- Provides guidance to the group.
- Evaluates the presentations.
- Archives the presentations submitted to the instructor and the peer evaluations.

**Student**

- Pays attention to group dynamics during the preparation and presentation processes.
- Prepares the topic using the assigned resources and additional references.
- Presents the relevant topic within the pre-determined time before the class, as scheduled in the curriculum.
- Prepares and delivers the presentation to the entire class using various teaching techniques (e.g., interviews, role play, demonstration through practice, etc.).
- Conducts self-evaluation of the presentations.
- Conducts peer evaluation of the presentations.
- Submits the presentations and evaluation forms to the instructor.
